

The 250cc transplanted flasks have 100-or-more husky seedlings in each. When shipped IN FLASKS, customer pays shipping charges. Order them "Bare Root" out of flask and they fly to you, Air Mail Prepaid. In either case, potting mixture is provided, without additional charge. (See Pages D-1 and T)

If you can't use more than 25 seedlings of any cross, order a COMMUNITY-POT-LOT. The "Bare Root" seedlings and potting mix will fly to you, Air Mail Prepaid. You prepare the 3-inch community pot as instructed on Page D-1. (NO MIXED LOTS!)

250cc FLASKS ARE PRICED AS FOLLOWS:

Single flask: \$15.00.....Any two: \$25.00.....Any three: \$30.00

COMMUNITY-POT-LOTS (25 Bare Root seedlings in a lot):

Single C.P. Lot: \$6.00.....Any two lots: \$11.00.....Three or more: \$5.00 each.

#87-R BLC MARION RYERSON X BLC MALVERN - The cross of a medium dark red-lavender with a strong Yellow usually produces a percentage of yellows, but a larger percentage of unusually brilliant, dark, red-purples. Winter or twice yearly. (This cross available ONLY in COMMUNITY POT LOTS.)

#162 V. TERES GIGANTEA X V. GILBERT TRIBOULET X V. TERES - Blue-lavender semiterete Vanda. (See pages Q and V on Vandas.)

#531 D. LOIS ANDERSON (Hawaii Nui, var. Dark Beauty X Phalaenopsis Dixon) - This cross of unusually fine, dark, red-purple Dendrobiums should result in a superior Lois Anderson. Fall blooming. (See Page U.)

#544 D. PHALAENOPSIS, DIXON X SELF - For five generations the largest and darkest of the Dixon strain had been selfed. This will be the sixth. Large, dark, well rounded blooms. Fall.

#752 C. HENRIETTA JAPHET X C. AMETHYSTOGLOSSA - Baby pink clusters of small, heavy textured blooms; darker pink dots. Spring. Seedlings exceptionally vigorous.

#754 C. LEDA, VAR MIDNIGHT X BLC MARION RYERSON - Darkest, plum purple Leda, crossed with rich red-lavender Marion Ryerson with cerise lip. Winter or twice yearly.

#758 LC CANHAMIANA ALBA X B. DIGBYANA - Exceedingly large White or White-Colored-Lip brasso type blooms for May--June.

#759 C. MLE LOUISE PAUWELLS (Intertexta, Juliette x Edithae #1) - Grand production large, well formed White blooms. Twice yearly, June and November.

#760 LC CYNTHIA X LC NEW YORK, JEWELL'S A. M. X C. GRANULOSA, SCHOFIELDIANA - Peach-flushed yellow to chartreuse; fuchsia lips. Spring.

#761 C. BICOLOR X C. GUTTATA - Cross of two green and brown bi-foliates for heavy textured clusters. Autumn.

#786 BC PLUTO (C. Granulosa x B. Digbyana) - Lime green heavy textured flowers with fringed lips. Spring. (These won't be ready for communities before July 1st. If ordered "Bare Root" they will follow the rest of your order when ready.)

NOTICE: In ordering whole flasks, be sure to say if you want them shipped in flasks, charges collect, or Air Mail Prepaid out of flasks.
